

New Generation Ski & Snowboard School

New Generation is a small British run ski and snowboard school. They have ski schools located in most of Ski Beat's resorts - Meribel, La Tania, Vallandry and Val d'Isere, making them an excellent choice for our clients.

New Generation enjoys an excellent reputation amongst the International ski community. New Generation was voted 'No.1 Ski School' by the 'Which Guide' and the 'Snow Awards'. The school offers an excellent range of lessons for skiers and boarders from morning groups (beginner to intermediate) to Technical Clinics (Intermediate to advanced) to private lessons. If you are an experienced skier looking for something different then sign up to one of their PRO range programmes which cover everything from off-piste adventures to cruising the blues to video feedback assisted learning. If you fancy a one off session to work on a specific skill (bumps, park, off-piste, ice etc.) then join a SkillSession (Only 55 Euros!).

They mostly run children's lessons during school holidays but will set them up in other weeks depending on demand so it is always worth contacting them. Children's lessons are run in the morning so adults have time to explore or join lessons themselves. All lessons are in English and the groups are small.

You can book ski or snowboard lessons with New Generation on their website (www.skinewgen.com), by email info@skinewgen.com or by contacting their office 0033 479 01 03 18 or 0844 484 3663 (UK only).
